The Cone Health Mammography Scholarship Fund will cover one screening mammography per year to patients who meet the above criteria.

Screening mammography is for women who do **not** have significant symptoms or changes in their breasts such as a lump, nipple discharge or implants. Women with such symptoms need to have a more comprehensive (diagnostic) mammogram.

Any additional mammography views or breast ultrasound that is recommended by the radiologist following your screening mammogram will be an additional charge and **will not be covered** by the Cone Health Mammography Scholarship Fund. Other funding may be available.

We welcome your application for a Cone Health Mammogram Scholarship for your next annual screening mammogram, as your needs and the funding varies from year to year.
